

SECTION 4 Licence module – Cannabis research

Application for cannabis licence under the *Narcotic Drugs Act 1967 (Cth)*

Important notice

Complete this licence module if it is applicable to your application. The completed module must be attached and submitted along with all other parts in order to form a complete application.

Information required

This module requests information relating to type of licence and subsequent range of authorised activities for which approval is sought.

Legend:

Tetrahydrocannabinol = THC

Tetrahydrocannabinolic acid = THCA

Percent weight/weight = %w/w

4.1 This applicant is seeking the licence for:

☐ Non-commercial cannabis research

4.1a If the licence is for non-commercial cannabis research, provide a summary of:

- the primary purpose of the research
- who will benefit from the research
- how any products that may be developed as a result of the research will be used
- the source of the funds for the research, and
- who owns or operates the research facilities in which the research will be undertaken.

If you need more space to clearly answer this question, attach a separate sheet labelled appropriately

OR

☐ Commercial research

4.2 Psychoactive content

Cannabis materials, for which the licence is sought:

☐ will not exceed 1% w/w THC or equivalent THCA

OR

☐ may on occasion, or will always, contain 1% w/w or greater THC or the equivalent THCA

Important: Where the applicant elects to operate with cannabis materials containing <1% w/w THC or its equivalent in THCA, the licence will be conditioned accordingly.

4.3 What activities involving cannabis research is the licence to authorise?

- ☐ Cultivate
- ☐ Produce
- ☐ Cultivate and produce

4.4 Provide a summary of the cultivation and / or production activities that you propose to undertake, including how the outcomes of this research relate to medicinal cannabis.

If you need more space to clearly answer this question, attach a separate sheet labelled appropriately.

4.5 Confirm the full range of activities sought for authorisation

In normal operations, some activities involving cannabis may need to occur off site. Your application must declare the situations in which this will occur. For example, a sample may be sent to a laboratory for testing or transported or destroyed by a contracted specialist.

4.5a Use the check boxes below to identify the scenarios when cannabis will leave the site nominated in your application

- ☐ Analytical testing
- ☐ Transportation to a person lawfully authorised to receive the cannabis
- ☐ Transportation to the holder of a medicinal cannabis licence (only for cannabis research licence)
- ☐ Transportation for disposal or destruction
- ☐ Transfer to another site that is associated with the proposed licence
- ☐ Others not covered above – Please define

4.5b Explain the purpose of each movement

If you need more space to clearly answer this question, attach a separate sheet labelled appropriately.

4.6 Provide details of the funding, financial assistance or other resources that will enable the applicant to carry out the research mentioned above.

Note: This section is designed to capture any research specific funding.

If you need more space to clearly answer this question, attach a separate sheet labelled appropriately

4.7 Please attach a resume detailing the qualifications and expertise of the person conducting the research.

Please identify the file name of the relevant attachment
